

BUILDING DESIGN STANDARDS

FACILITIES MANAGEMENT AND ANCILLARY SERVICES THERMAL & MOISTURE PROTECTION –

DIVISION 07

E/0Tc 0 25i .72(Sn.4585r38004 8t3.

Part 1 General

1.1 Summary

.1 Unless otherwise indicated, follow the standards below when specifying fire-stopping work. These standards are not intended to restrict or replace professional judgment.

1.2 Design Requirements

.1 Comply with the requirements to applicable building codes.

The contractor shall provide the consultant with the details of the fire-stopping installation. The consultant shall visit the site to verify that the fire-stopping floors are closed and finished.

1.3 Guarantee

.1 The products described in this section shall be guaranteed for a minimum of 10 years from the date of substantial completion of the work.

Part 2 Products

2.1 Preferred Products

All products must adhere to the requirements of the specification.
